

**Lhasa Apso Association of Wales & South West  
Championship Show - 19th November 2017**

**Judge Melanie Shand-Clark**

Firstly, I would like to thank the Committee for inviting me to judge this excellent Breed Club Show. It was a very successful and happy show, and I would like to thank them for all their hard work, well done. Many thanks for the lovely silver engraved picture book, I loved it.

I would like to thank all the exhibitors for their support shown. I know a number of you have traveled a long way and I very much appreciate you being there. I must also say the turnout and quality was exceptional, thank you. There were a number of quality exhibits in the classes that had to leave the ring, and I was very impressed with the Limit and Open classes of the day, they were a delight to judge.

I was impressed to see the overall quality of the breed has definitely improved, and was very pleasantly surprised, more being of skeletal soundness, heads and eye.

Although there were a couple of examples of far too narrow bottom jaws with missing incisors and dirty teeth, no excuse here!! roundness of eye, all of this not giving the expression required for the breed.

Poor upper arm, upright shoulders and length of loin. I do feel we need to watch the strength in the hindquarters, turn of stifle and angulation, in the instances I found the hocks were very weak. However, I was pleased these were in fewer circumstances than my previous appointment, but something that really needs addressing.
